THE 457 CONSULTING GROUP

About Us

At the 457 Consulting Group, we work with the fiduciaries on 457 retirement plans as co-fiduciaries step-by-step to help ensure they are addressing their duties, while offering the most appropariate plan available for the organization's particular needs.

This includes an evaluation of the current provider, the creation assistance and evaluation of an RFP if a new provider is deemed necessary, and the ongoing monitoring of fees, fund performance, and education effectiveness.
